

I would like to offer three seminars to Club members and others. I feel that too many boaters are not aware of the rules and principals that keep us safe. We can not assume that our Bay is a benign environment that we can venture on in ignorance. Seminars will be held on **Saturday mornings at 10:00** at the Clubhouse.

On **June 7**, the topic will be **Laws, Rules, Procedures, and Customs**.

On **June 15**, the topic will be **Anchors and anchoring – the art of staying put**. This will be outside and a rain date is June 28.

On **June 21**, the topic will be **Navigation on the Bay**.

For fifty years I have been snickering over the antics of my “fellow boaters”. This is my chance to do something about it. Come on down, and if you have nothing more to learn, maybe you can teach someone something.
